

Inner Feng Shui

Freedom and Personal Transformation

by David Kennedy

The message of Feng Shui is that our environment is affecting us much more than we are aware. We can call this environment our outer environment, or that which is outside of ourselves: our home, property, and so on. But our outer environment can never affect us as much as our inner environment does.

In the years I have been practicing Feng Shui, I have seen clients and students gain tremendous benefits in their careers, relationships, and health from adjusting their external environments. One area that many still struggle with however is being trapped in thoughts and emotions that bother them without knowing how to change them. People can continue to have issues with their inner landscape even after the outer environment has improved dramatically.

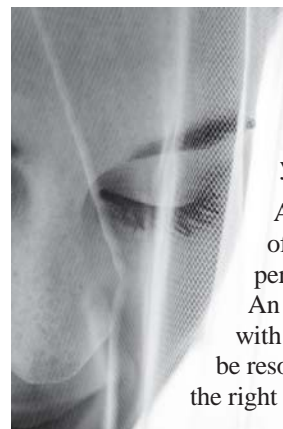

Perfecting the external environment is a goal which I truly support, but without corresponding inner freedom how much have we truly gained? Clearing clutter in one's home can be very freeing, but will it ever be as important as **clearing the clutter in our minds and hearts?**

Aesthetic benefits are highly desirable, yet they pale in comparison with the ability to have a **balanced and peaceful inner life**. In fact, our external environment is always a reflection of our internal state of being. Why not work directly with the source of that reflection and change it there as well?

Inner Feng Shui

Inner Feng Shui is about having the ability to have the inside of you – your thoughts, feelings and emotions – be the way you want, the way that serves you best. It can make a great complement to external Feng Shui.

Creating desirable and beneficial thoughts, emotions and feelings actually is much easier than you may think.

The key is simple: realizing YOU are in charge of the inside of yourself and having simple, effective methods of changing your thoughts and feelings when you want to.

Adjusting the internal landscape can often take place even faster than performing external Feng Shui cures. An inner problem you have struggled with for years or decades even can often be resolved in just a few minutes time with the right methods.

A New Way to Change

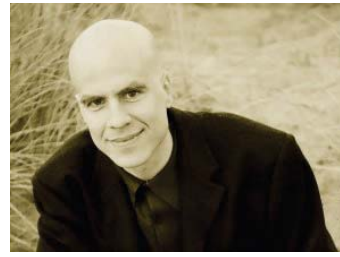

There are a variety of new techniques which contribute to the emerging field of energetic clearing. Energetic clearing is aimed at creating personal freedom more quickly and easily than with previous methods. A core realization of this new arena is to treat the mental or emotional issue as an energetic phenomenon rather than trying to resolve it on the basis of its “content.” This allows change to happen more easily because changing energy from one state to another can happen very quickly.

Let's take an example. Say you feel anger towards a friend. This anger is clearly a painful emotion, and you would like to be free of it. Let's say the "content" of your anger, or what the anger is "about" is something the friend said that you find to be insulting. Reviewing and rehashing what your friend said and figuring out why its bothering you; trying to talk yourself out of it, etc., can turn out to be an endless process, like trying to untangle a knotted ball of twine.

However, once we set aside the content of that anger (what the friend said) and simply treat the feeling as an energy, change is only a moment away. If can we treat the issue based solely on its energetic nature, change is simple and direct.

The good news is that the process of dealing with thoughts and feelings as an energetic landscape is both easy to learn and one that creates increasing freedom. The more you do it, the more ability you attain, until you are able to change the energy of a thought or emotion on a moment's notice.

Imagine being able to clear disturbing emotions quickly and just get on with your life. Unload the burden the past and gain newfound freedom and ease. Remove the 'sting' of traumatic events and feel at peace with what happened. This is Inner Feng Shui in action and it leads to dramatically increased smoothness, freedom and joy in your life.

...thoughts from Maureen

It was April 2008 and Dawn Hankins had just returned from the First BTB World Feng Shui Conference held on the beautiful Caribbean island of Curacao. The highlight was the two day workshop held by HH Grandmaster

Professor Lin Yun. Dawn was thrilled to have personally met the Professor and she was ecstatic that he had accepted an invitation to come to Calgary to present a workshop. And so it was ... Dawn and I embarked upon getting the logistics in place for his upcoming visit.

August 20, 2009 – My husband Ed and I were the official 'chauffeurs' for HH Grandmaster Professor Lin Yun and HH Khadro Crystal Chu Rinpoche. We were reminded by many that we were responsible for some pretty special people. As soon as we met our guests, we knew just how special they were and we were honoured to ensure that everything was as perfect as could be for them. It was truly the highlight of my Feng Shui life.

That weekend, I met many Feng Shui experts. I had been particularly impressed with the book, *Feng Shui for Dummies*, and so I was delighted to meet the author, David Kennedy. We spoke about the possibility of David coming back to Calgary to teach some workshops, and since November, 2009, he has taught six workshops in Calgary. Two of those workshops were live streamed worldwide and are available online through Feng Shui Market's Home Study Centre (<http://fengshuimarket.ca/category-feng-shui-home-study.html>).

It has been yet another incredible journey – I have learned so much from David and it has been an honour to be able to host his workshops over the years. His studies with HH Grandmaster Professor Lin Yun combined with his own personal dedication and experience has provided workshops filled with an unbelievable amount of valuable knowledge – all tried and true.

When David and I first started talking about his next workshop, we were both drawn to the "Inner Feng Shui" concept. We live in a busy world and in these times of 'everything right now', it is hard to find the time and sometimes the energy to look after ourselves while we are busy looking after everyone else.

I would like to invite you to 'look after you' and do whatever it takes to join us at the upcoming [Inner Feng Shui, Freedom and Personal Transformation](#) workshop, being held November 2-3, 2013 in Calgary.

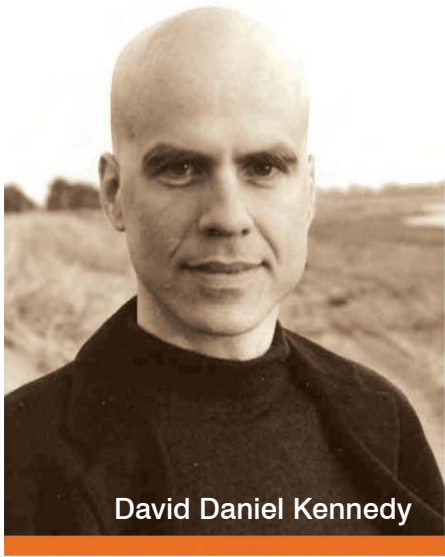

This workshop is ideal for everyone who desires a balanced and peaceful life. You do not need a Feng Shui background, so invite your friends and loved ones to join you.

I look forward to seeing you then and I promise you that it will be a weekend worth remembering.

"David Kennedy has helped me be true to myself and my dreams and to live authentically! If you want to move theory into practice and make real life changes, I will see you at this workshop."
